Career Objective

- Motivated and enthusiastic B.Tech CSE (AI & ML) student with strong interest in Backend Development, Problem Solving, and Software Development. Currently learning Data Structures & Algorithms and improving programming skills through coding practice and projects

Technical Skills

- Python (Intermediate), java (Basic), Data Structures & Algorithms
- Object-Oriented Programming (OOPs)
- NumPy , Pandas
- FastAPI
- Git & GitHub (Basic) ,Problem Solving

Projects

Password Strength Analyzer

- Developed a Python-based application to analyze password strength.
- Implemented validation checks for password length, symbols, numbers, and complexity.
- Improved understanding of string handling and logical conditions in Python.

Coding Profiles & Practice

- Solved 100+ coding problems on LeetCode, GeeksforGeeks, and HackerRank.

Achievements & Participation

- Participated in Smart India Hackathon.
- Consistently practicing coding and learning new technologies.
